

## Green Wedmore Solar Challenge 1000

**Thank you for showing an interest in our project**, the information below outlines the offer – it is available for any property owner in Wedmore, for both residential and commercial use.

As part of our Zero Carbon work, we are constantly looking at new ways of empowering people to make the changes needed to reduce our use of fossil fuels – we hope this project will help many people in the parish reduce not only electricity bills but your carbon footprint at the same time.

These are the villages and hamlets included in this scheme:

Alston Sutton	Mudgley
Ashton	Newtown
Badgworth	Panborough
Bagley	Sand
Blackford	Stone Allerton
Blakeway	Stoughton Cross
Chapel Allerton	Theale
Clewer	Wedmore
Cocklake	Westham
Crickham	West Stoughton
Heath House	
Latcham	
Middle Stoughton	

**Sunlit Solar** – We have teamed up with this local installer who have developed a discounted solar package which represents more than 10% saving. It is a 3.7kw package suitable for most domestic needs. They can be contacted on [info@rogerselectricians.co.uk](mailto:info@rogerselectricians.co.uk). Rooves come in all shapes and sizes and if you find this package does not suit you, the installer will give you a 10% discount on your chosen package.

**Lendology CIC** – We have teamed up with Somerset based Lendology who provide council funded loans, specifically for property repairs and energy efficiency measures. We hope this will make the solar installation achievable to a wider spectrum of property owners. They are a very friendly and approachable team and support fully what we are trying to achieve in Wedmore – they can be contacted on 01832 461099.

**In this information pack please find the following:**

- Information from Sunlit solar and a 3.7kw package quotation
- Information leaflet from Lendology

**If you require further information** there are various options available to you, firstly you can come to our Green Wedmore meeting and listen to a presentation by Mike Rogers, the owner of Sunlit Solar on April 26<sup>th</sup> at 7.30pm (Zoom code will be in your email) or you could get in touch with them directly on the email address above. Please note Sunlit are not planning on commencing any installations until May of this year, but there is still plenty of time to make enquiries and have a no obligation survey to see if your property is suitable.

We are delighted to have teamed up with these 2 organisations. Green Wedmore does not make any monetary gain for these installations or the raising of any finance, however, upon completion of the solar installation the property owner will be given a £50 voucher which may be used by you as a further reduction on the installation costs or donated to Green Wedmore.

Green Wedmore can be on hand to answer any general enquiries about this project if you feel Sunlit and or Lendology cannot help. All dealings with Lendology are done on a personal basis, and Sunlit solar do not need to be contacted with regards to the raising of finance.
